WELCOME FLOWER & PLANT LOVERS COLLECTION 2023 @EMERALD

EMERALD

NEWS WE'RE EXCITED TO SHARE WITH YOU!

A new year, a new collection and a brand-new headquarters! It's an understatement to say the least that 2023 promises to be a milestone year for us, and I really am beyond proud of everyone in our team who helped make this dream come true.

When we started Emerald in 1994, we had a simple mission - to make the world a happier and more colourful place with artificial flowers and plants that look just like the real thing. We could never have imagined that we would be serving so many partners around the world and to be welcoming them in such a unique, energy-neutral headquarters.

Our new 11,000 m² home will enable our team to dream even bigger, showcasing our striking portfolio in a beautiful and inspiring setting, including our year-round and seasonal collections.

Each and every one of our collections is created with the utmost care and expertise by our team. Our year-round collection is directly available from stock, and we present a new seasonal collection twice a year based on the most exciting upcoming trends.

I hope you enjoy exploring the items from our complete year-round collection for 2023 in this catalogue. And that you are inspired to make the world a happier and more colourful place too!

Warm regards,
Hans van de Kerkhof
Owner and director at Emerald

ABOUT EMERALD

Emerald Eternal Green was born in 1994 when our founder, florist Hans van de Kerkhof, was inspired by the potential of the highest-quality artificial flowers and plants. Initially run from his very own garage, the company soon began to grow, serving a growing number of customers across the Netherlands, then Europe, and then the world.

Today we're a truly international family business, and with Hans's son and daughter, Joël and Chloë van de Kerkhof, joining the company, the Emerald team is now made up of more than 30 passionate and dedicated colleagues.

Our new energy-neutral headquarters has a stunning 2,000 m² showroom, a dedicated 1,000 m² office space, and a 8,500 m² warehouse. What's more, from our restaurant to our entrance every single detail has been designed to inspire visitors and give them the ultimate Emerald experience.

We're proud of our team and proud of our mission to make the world a happier and more colourful place. We do this together by focusing on our four shared core values: people, partners, products and productivity. Four simple principles that define and drive all that we do.

We feel privileged to have such loyal customers, and an unparalleled network of suppliers, agents and partners that enable us to share our extensive collections and innovative creations with the world.

LET'S MEET

WE ARE HAPPY TO WELCOME YOU

We love showcasing our beautiful collections of artificial flowers and plants to customers from across the world. And there's no better place to do just that than at our stunning and spacious 2,000 m² showroom in Eindhoven.

Our showroom is divided into two different floors. On the first floor you will find our extensive year-round collection, which is directly available from stock. On the second floor we display our seasonal collections, which are a year ahead of the latest trends.

Fear not if you build up an appetite while choosing your next collections! You're welcome to enjoy a gastronomic delight in our very own restaurant.

What's more, if you can't visit us in person, we would be delighted to give you a virtual tour online!

FLOWERS

What makes our silk flowers collection so unique are the intricate and true-to-life details. From the natural colour gradients to real-touch finishes, we've thought of every single detail. This makes them indistinguishable from the real thing, whether in a bunch, combined in a bouquet, or as part of a decorative arrangement. Best of all, they don't require any care, and remain bright and beautiful throughout the year.

LEAVES & BRANCHES

Creating leaves & branches so realistic that you can't tell them apart from the real thing is all about the small and subtle natural details, from the veins in the leaves to the natural colour gradient. Our leaves & branches are perfect to use as a statement piece in a tall vase. Or use them in a bouquet or decorative flower arrangement to provide that special natural touch.
